### FEATURES

Beautiful golden husk variety that produces bulbs with extremely uniform shape and size. Early to main season maturity. Excellent eating quality. High resistance to foliar diseases.

#### Disease Codes:

St Pink Root (*Setophoma terrestris*)

NOTICE: Variety information presented herein is based on field and laboratory observation. Actual crop yield, quality, and level of claimed pest and pathogen resistances, are dependent upon many factors beyond our control and no warranty is made for crop yield, quality, and level of claimed pest and pathogen resistances. Since environmental conditions and local practices may affect variety characteristics and performance, we disclaim any legal responsibility for these. Read all labels and tags. They contain important information regarding conditions of sale. Including limitations of warranties and remedies.
