

## Wild Card

## **Watermelon Pollenizer**

## **ATTRIBUTES**

**Type** Hybrid Pollenizer

Days (TP) Early

**Fruit Characteristics** 

Round, Light Green Background

with Medium Green Veins

Flesh Color Yellow

## **FEATURES**

Early and prolific male flowers to ensure maximum yield potential of triploid hybrids throughout the period of full flowering. Long and thin vines which reach out and cover larger areas for better pollination. Small fruits are easy to differentiate.
